| | | |
| | | |

Topic Summary:

| Discussion Topics | Actions to be taken | By who? |
|-------------------|---------------------|---------|
| | | |
| | | |
| | | |
| | | |

Agenda:

- **Introduction:** Briefly explain the purpose of the toolbox talk and its relevance to the work being performed.
- **Identification of Hazards:** Identify the specific hazard(s) associated with the task or work area.

- **Potential Risks:** Discuss the potential risks or consequences that could result from the identified hazard(s).
- **Control Measures:** Present the control measures that should be implemented to minimize or eliminate the identified hazards. Include both administrative controls (procedures, training) and engineering controls (physical barriers, equipment).
- **Personal Protective Equipment (PPE):** Specify the required PPE for the task or work area and emphasize its importance in reducing risks.
- **Safe Work Practices:** Outline the safe work practices that should be followed to prevent accidents, injuries, or property damage.
- **Emergency Procedures:** Provide a brief overview of the emergency procedures to be followed in the event of an incident or emergency related to the discussed hazard(s).
- **Questions and Clarifications:** Encourage participants to ask questions and seek clarification regarding the topic or any related concerns.
- **Conclusion:** Summarize the key points discussed and emphasize the importance of implementing the safety measures and practices covered.
- **Sign-off:** Have participants sign a record to indicate their attendance and understanding of the toolbox talk.
